Message from Group Finance Controller

Greetings from Hotel Kodai International!!!

M.V. Ramarao
Group Finance Controller

With the reference to the implementation of 5S technique in our premises, after taking up this assignment our consultants M/s Mass Consultancy, coimbatore done wonderful job by 5S Seminars, inter adults, motivating classes and more importantly they constantly monitored progress and deviations with most importance, all our staff members responded equally well to their expectations as well as to our's. The most important aspect of this pilot project, we expected project and implementation expenses may occur, since new accessories an equipments to be procured, which didn't happen at all we are thrilled to see reuse of most of the materials what we thought absolute throw away scraps and innovations and betterment have taken in almost most areas in above said type and Maximum utilization of space allotted have taken place quite effectively.

Once Again undersigned greet each and every one involved in this pilot project and their commitment shown.

With Warm Regards,

M.V. Ramarao
